Dear General Rivers

I have not lost sight
of the object in which you are so
interested but since my return Mr
Bealey has been from home. The
moment, however, he comes back
I shall call & lay the matter
fully before him. I have since
I had the pleasure of seeing you
ascertained also that his Grand-
father was very much annoyed
at injury done to the Towers
in Gloucest & this may help a

little At present I suspect it
will be better to let the opinion
of Flavin alone as there are a
good number of very public
questions coming up here at
present in which he is more
interested than in Archaeology
I do not intend however to give
it up when a more favorable
opportunity offers & I hope Lord
Rensselaers agent will be able to
carry out his good intentions
at Iverwic

The Model of the Solid Wheel
cont. I shall have made this
Month I am certain I cannot

get a real one. I am going to
conduct an Excursion on Saturday
next, if the weather is fine, to
Abraham & I may then have
something of use to purchase
If not my own & I will spend a
day in the search & I should thus
not lead to anything I shall
have me made after consultation
with competent people

When at Moffat I visited
the tomb marked on the Ordnance
Map. They were chiefly oval in
form & made of kind of stones though
the limits you could not call them
walls now - some cases being
gradually obliterated. There are

So that it may go by
the next post + that the
matter may not pass out
of Mr Baillie's mind before
he hear from you +

Dear General Rivers

I saw Mr Bruce
Baillie yesterday + had
a conversation with him
as to the Survey in Glendy
He seems very favorably
inclined as to your wishes
+ perhaps you would forward

another Schedule a Form
Such as you left with
Mr Grant. In doing this
would you write along with
the document further explaining
what you desire as I ventured
to promise you would do this
as I think it would confirm
Mr Baillie in his good
intentions. Of also it was
quite convenient would
you kindly do this at once

as soon as he might come
into contact with any of
the proprietors about here
who are not inclined to
favor the Act

I ought to mention
that Mr Grant did give
Mr Baillie the Schedule
but unfortunately he was
unacquainted with your
address & did not know
when to write to.

I write this hurriedly
