Dear General Pitt-Rivers

You asked me some time ago by whom the ring and cup marked ~~stones~~ rocks at Ilkley have been broken up. I have made some enquiries and learn that it has been done by the Ilkley Local Board and the intention is said to be to place the carved fragments on one of the "rockeries" with which the

Board has been disfiguring the neighbourhood.

If an example can be made of this Board I much hope it will be.

The stones seem still to be as I saw them in Spring the better preserved group detached from the rock and broken into four pieces and the other group only partly detached.

Yours very faithfully
J. J. Micklethwait
