My dear General.

I am surprised & concerned
between the Director of the Survey,
yourself and all upon your
report of yesterday - to think that
there is a position to make a definite
recommendation about the staff
etc. I have no idea to be frank
what I think may best be
done with.

Nevertheless I cannot get the
prints from the Stationing Office!
Yours truly
A. Mitford.

Mysor General,

It is very kind of you to
invite us to Rushmore. We I fear
that my father's state of health
is still hardly well to get away this
winter. America has explained
this to me. It is not so
much but I hope it had been
possible.

I hope your visit to Scotland will
be pleasant and a success from an
official point of view.

My autumn is most like many
