To General Pitt Rivers.

Dear Sir

I have seen the circular
issued by you & the Society
of antiquaries relative to the
scheduling of other monuments
than those listed under Sir
John Lubbock's act of 82 -

Our Irish Academy Council
is not sitting at present but
I propose to submit to them
when they meet the measures
referred to & hope to get

In any most curious structures
accord to the Irish list, I
find it very hard to get owners
to place monuments under
the Board of works I do
not know whether you find
the same difficulty in England

I shall be very glad to
have any suggestions as
to your mode of operation,
also how far you think
the act could be stretched
so as to include Ecclesiastical
monuments of ancient date.

I took the liberty of
calling on you - once or
twice in London but

was not fortunate in finding
you at home.

When last at office
your grand collection
was being arranged in
the museum of which I
was architect.

I am dear Sir
Yours faithfully
T. N. Deane.

Superintendent of National
Museum in London.
