

on Claerton Down is plotted
down by the Ordnance Survey
just before leaving Balth Lake
loch. Menzies there is the
Chambered Tombs at
Stoney Littleton which when I
saw it last year had the day
light let in at the upper
end. Lord Hilton of
Ainslie Park is the
possessor. I wish I wrote a
letter about its present state
to which letter no reply was
much feared. But if you will
fix any day after next week

Crown Hotel
Wetheral.
Carlisle
Apr. 12/83

Dear Genl Pitt Rivers

Yours has been
forwarded to me here where
I am looking out for a
change of wind for some
salmon fishing. so that I
fear my answer will not
be so satisfactory as I could
wish owing to absence from
home &c. The Duffington
White Horse is in easy
reach of us by team to Duff.

Station. I don't trust you
there when I return home
unless you write me soon
to make acceptable at my
house & then we will go on
together the next day when
I last saw it a "scouring" was
much wanted. The name
of Scouring pit was
remembered but fancy it
belongs to a Deer swimming
with the letter C (rather
vague information you will
think). Not Carnarvon.
As to any other prehistoric

Monuments in the neighbourhood. There
is a Corneduck near Tracy Park. on the
North side of the stream of which only two
stones remain. ^(The type very old) (The
stones remain, the has disappeared). already
& I am not clear whether the stone has
fallen. The name of the stone is Tracy
of Tracy Park is the name. Now there is the
"scouring" pit very "was" likely enough
to get the last name of it in a person

PR Box. 2/w3

In a visit to the Turle
make homeward track & meet
you. There is much tree in our
part. the Roman bath you
might see certainly.

a line will reach you here
up to the beginning of next
week. In your know there
part Corby Castle seat of me
of the Howards is opp. there
'sundries. & the Vicar of
Wetheral alone. I believe in

Very truly yours
H. Wood

April 26/83

Dear Gen: Pitt-Rivers

Wednesday or

Thursday next week
will be quite convenient
for me. & we shall be
happy to offer you a
bed on either or both of
those days -

Very truly yours

H. W. Wood

I will make enquiries respecting
the proprietors -

at the foot of the hill: we shall pass two Wansdyke & see a lot of "tumps" of the Iron Age has not obliterated them. But: I fear by the present arrangement you won't be able to see our Roman Bath. which is really worth seeing. unless you make a little longer stay with us. Very truly yours
R.A. Woodcock

Y.R. Box 2/W3
I shall have to
go on Thursday at
the 5.12 train to Bath
at 10.50 a.m.

RECEIVED
MAY 29 1893

Apr: 29.

Dear Gen: Pitt-Rivers

Your proposal I have received this morning will suit me so long as I can get to the Swindon Station on Friday in time for the 4.12 train to Bath. This ^{can} ~~leave me~~ do or at least I can do after seeing the

White house by driving on
to Sweden instead of
returning to ~~Offington~~
station: I think

The Thursday excursion
to Marlboro will draw
well. I shall meet you
at the Sweden Station
at the time named &c.
to come for the 11.10 to
Marlboro: but I would

suggest that instead of returning to

Sweden. we go on to Storges &

catch the 4.50 pm train for

Watte arriving at the latter place

6.35 pm. This only some 4 or 5 miles

from Abbey hills to Storges: and you

can either take a trap or from Marlboro
cross a trap from us from Storges

Dear Gen. Pitt Rivers

I return to Matthe

This day (Friday) somewhat
earlier than I expected
& shall be happy to join
you in an expedition to
Stanton Drew or any where
else whenever you like
but it must be some time
before the last fortnight in
July. I believe me

Very truly yours

July 16/03

Dear Gen: Pitt-Rivers

Lord Bylton with "y. not i."
hope you did not experience that vicious thunderstorm
on the heights at Valley View - if so shall expect to
find some of your remains there tomorrow and
so there with Cotterwood Club.

H. W.

considerably younger and
thinner the people who made it
back into post-Roman
times. Can those noble
Barth works be made by any
people subsequent to the
Roman period? impossible -
therefore I must be an
agnostic as to the knife
or else a "cowardly infidel".
I must write you my thoughts
which of course are all
truthful. Congratulations

Apr 18/09

Dear General Pitt-Rivers
Congratulations on the Samian ware finds
but I wish you had not found
that iron knife below the
original surface line had
you found it above that
line it would have been
much more in accordance

with successive returns! -
I have been pondering on
that find and the following
thoughts come up. If the
iron knife was found
below the surface it was
not contemporary with
the people who ~~threw~~
up the campsite. It
must have been older.
and from its position very

Much other sufficiency it has been
all the subtle debris show the usual chalk
and several niches of hard to form, before
shown by the material. How why the
Hills who were making the campsite,
as that of the knife is Roman (it could be
sooner) than you must make the campsite-

PR Box 2163

on the fact that your designs
have not been altogether
accepted & remain

Very truly yours

R. W. Wood
