

WEST PARK,  
DAMERHAM.

Salisbury

29 May 1895

My dear Spencer,

Yours of '22 ap! 6  
hand, also the parrots  
but Gillens photos  
sent by you on 1 ap!  
have not reached us

please let me know  
the address you put  
on them also whether  
it was by parcel post  
as I must apply to  
the postal authorities

I have had your  
negatives developed  
and the prints are  
very good. I am  
having an album  
made & will forward  
as soon as I get  
it —

Could you not  
send Gillies negatives  
instead of prints

It is a pity that  
Circumcision Group  
was not thought out

a little, as the  
first remark

Every one makes is

"I always thought they  
only operated on boys"

Whereas the machine

is so evidently a

wrinkled old man

that it rather sports

the Valves.

Come you not

Get John to send  
one of a group in  
some rocky spot  
without any white  
men & with the  
operators, painted  
LC and operating  
on a day of 14 yr.

Franklin
