

Copy Sent to Horn. Aug 27. 95. 17.

Now as to the anthropology. The outline which I sent to you was meant for your own private use & not for publication. I shall have placed myself in a most awkward position with Mr. Stirling & Fellen if you in any way took up & publish these notes as they are written my own property. Fellen who is at present staying with me is not at all satisfied with the way in which things have gone but in Adelaide he will see Stirling & finally decide about his notes - a rough outline of which I sent you.

As you will see they are of very great value & he will only allow them to be published under conditions that which I have told him that I am quite sure you will approve of (1) that his photos, are used to illustrate his notes (2) that the latter are published distinct from the general anthropological article & clearly in his name & (3) that the cutting series of photographs is published. If these conditions are not agreed to he would prefer to publish them elsewhere where he would get credit for them due to him & the necessary illustrations. He will only send his negatives home on condition that they are returned to him as soon as possible that no copies of them are distributed. Seeing the very

No. of Question

great trouble to include his work in
 securing the plates. which are quite unique
 & that he is handing over his work for the
 benefit of the Museum I have told him that I feel
 sure that you will see that these conditions
 are carefully carried out. You will receive
 the anthropological article at an early date: the
 series of "cutting" negatives are in my possession & Fisher
 has authorized me to forward them as soon as I
 hear from you that his conditions are accepted. You
 will understand that he is very anxious about his
 work & is not at all satisfied with the present
 position of affairs.
