My dear Spencer

Wonders will never
cease & the eye of miracles is
not yet fast - whatever your
scientific asterisks may say to
the contrary. In other words
I have just received a letter
from Horn, & more remarkable
still he has condescended to
instruct me to advance up
to £500 to you, so you can
now set about those precious

plates with an easy conscience.

Think what a lot of fun we
could get out of what you are
chucking away in wretched
lithographs. Its a sin.

Sincerely Yrs
F. W. Bell
