My dear Spencer,

Yours to hand I am glad you like the reproductions of scenery — I thought they were splendid — but your criticisms rather disconcerted me — I fancy the one you refer to was the Camel bluff done by Straufways they were certainly awful, yet Dulan recommended them, I refused to take the blocks and then went to the Swan Co. although I am afraid I will have to pay Straufways

as well —

All the Murray plates
570 of each go by this
Steamer — The plans
will go next week & I hope
the Anthropological plates
as well — I have not

yet received your General
Chapter but expect to do
so tomorrow — The
Diprotodon reference will
be a great addition as
it would never have
done & have ignored
the beast altogether

I Enclose Swans
forwarding note

Truly
Yrs sincerely
W. A. H. S. P.
