

West Park (7)  
Damerham  
Salisbury  
6 Jan 1895

My dear Spencer,

I am still without  
any information as  
to collections made  
during progress of Exp.  
and with the except of  
Winnick's & yourself &  
a rather vague note  
from Stirling I have  
had no information  
of consequence.

I have now decided  
that all reports when  
compiled must be  
sent to me here

also a list of illustrations  
suggested by each  
member — If you  
then send the plates  
home I will get the  
whole thing done here  
and get a good man  
to edit it,

Will you kindly inform  
each member of  
his decision & ask  
them to send in reports  
as soon as practicable  
as I must see the  
reports & judge of  
their value before  
I incur any expense  
in publication

I don't feel at all  
satisfied with the  
manner in which  
Sours undertakes appar-  
tly inclined to rather  
leave my Connection  
except as Cashier  
in Connection with  
the undertaking

I wish to get for  
every member his  
full measure of thanks  
but Sours our much  
decide as to the  
length & value of each  
report for publication  
and I am going  
to do that myself  
assisted of course

by scientific friends  
here

I am sure the  
reproduction of  
Photos will be very  
much better done  
here than in the  
Colonies

Wishing you  
a happy & prosperous  
new year

Yrs  
Ever sincerely  
Wattson

mem

Your letter with lists just I hand.
