My dear Spencer

I do not know when I received
 a letter which has given me more genuine
 pleasure than yours of 25. I thank you
 most truly for the very great compliment
 which you propose to pay to me and myself
 of dedicating your 2 plates and
 this. I am quite sure that I may
 say for them and for myself that this
 will be very valuable to us and I
 wish it all the success which it deserves.

Yours W. Balcanquhall

and which it will in a well state.

I think that you have chosen
wisely in keeping the term Class
and sub-class. At the time I
thought the Tolein & sub Tolein, w
Major Tolein & Tolein might have
done, but there are some class
names of which needs not show
the meaning, as words, and cannot
be understood that they are "Toleins". -

I congratulate you on having
your great work practically finished
it must be a great mental relief
- I wish I could be the same of
myself - but all that I can do
is an hour or two for several
months and
Yours faithfully
