My dear Spencer

Mr. Siebert has in his lists of
 the Dieri Wotens given me his version
 of their English names which of course
 do not enable me to identify more than
 a few of them. As he gave me also
 a list of "Womkaranda" wotens - I have
 assumed these to be Arunta and
 it has struck me that you might be
 able to give me the proper names
 for the Dieri Wotens. I have therefore
 made out a list which I enclose

and I shall be very much obliged
for any assistance in this matter
which you may be able to give
me. I have left a column for
any remarks you see yourself
able to make

Yours faithfully

Anscombe
