

High St

East Malvern

9. Aug 1907

My dear Spencer

I have now two of your agreeable notes  
 to answer, but in the first place let me say  
 that I very much appreciate the compliment  
 which you and yourself Mr Robert pay  
 me in asking me to act for my husband  
 and I shall have very much pleasure  
 in doing my best to arrange accordingly.  
 I think I can arrange for a Tuesday  
 morning - and if you will be so kind  
 and I would endeavor to arrange  
 for the next Tuesday, if you will let me

How & telephone this week.

Further arrangements can be  
then made.

I send you a further instalment of  
M.S. - on "Medicine men". It is  
not revised - properly, and the matter  
requires some rearrangement. In follow  
this I shall have "Institutions Cerebras"  
but the paper will not be ready for some  
time. When it is I will be very pleased  
to send it of "Olivier's" "want more".  
I also enclose the last legend which  
Robert has sent me. You will be  
amused at the footnote about

Allegations. It seems to me very clear,  
- but the last type blackens

Knew any thing about alligators - but let the Plains  
finding fossil bones such as those at Lake  
Callabonna have built in their find  
with one of the Mura Mura legends. That  
relating to the Mura Mura Minkani refers  
to me of the "alligators" somewhere up Birdville  
Tray or far as have yet been able to  
locate it.

These wanderings of the Mura Mura seem to  
me of the wanderings of the Alcheringa ancestors  
you have recorded.

Yours faithfully

Arthur
