My dear Fison -

I send you herewith a short note written some time ago to the J.A.I. Its crudity may perhaps be partly accounted to the fact that it was written out of me during rather rough weather in the Mediterranean to the uttermost draft of which I have no doubt but that you will suggest it would have been advisable to compose it as in the case of another theory.

However here it goes and you need not trouble to read it.

Have you heard lately from Major: Once more a 'suggestion' of yours has borne fruit. F. writes me to say that he is getting up a

petition addressed to the powers that be requesting them to grant permission to myself the necessary leave of absence to go up north to study the tribes between Alice Springs + Port Darwin.

He is however seized with a 'shaky dread' as to whether after all this I would care to go. I have written him a line easing his mind on this point and now when it comes to hand I shall have to rely upon you for the customary testimonial from 'some clergyman or other respectable individual' to state that the said ~~fact~~ petition was not, <sup>sub rosa</sup>, got up or at least suggested by myself: otherwise the domestic hearth may have its peace disturbed.

You kindly

W.M. Aldrich Bence.
