My dear Spencer -

Many thanks for your kindness in sending me your Presidential Address to the A.A.A.S. which I have read with much interest. It ought to advance the cause of Ethnology in Australia.

May I point out a little slip on p. 57 you speak of "Moustierian coliths," but coliths date long before the Chellean period. Trager may not like having his second ~~and~~ name with a wrong initial letter!

I saw in the papers that you had generously offered to be an honorary Reader in Ethnology - I hope your classes are well attended & that you will be able to enthruse some trained students to work in the field.

Ethnology is going on well in Cambridge -
though we have not attained to the large
numbers that Harett claims for Oxford.

I suppose you saw that A. R. Brown has
been appointed to the Chair of Social Anthropology
at the University of Cape Town. I am very
sorry that Huxley did not get the directorship
of the Australian Museum.

My daughter Kathleen - whom you met -
4 years ago married an Adelaide - Oxford
man - Rishbeth - He has just got an
appointment as Lecturer in Economic Geography
at Aberystwyth. They have a fine little
boy - 3 yrs. old -

With all best wishes, & kind regards
to Lady Spencer.

Yrs. sincerely,

A. C. Haddon
