My dear Marett

Many thanks
for your letter. I have
been so busy since my return
that I have not as yet been
able to finally fix up the map
of distribution of Australian tribes
known to me. I will I
hope come next mail.

As to publication I have no
doubt but that we can manage
that out here. I will try
to get the Federal Government to
undertake it & have little doubt
but that they will.

I am trying to get a grant
from the Gov. for the expenses of
Miss Bayly & shall probably be
able to tell you the result before

From near England.

We are in the thick of making arrangements for the visit of the Association and as Sec. for Victoria my time is fully occupied.

Macmillan tells me that it is useless to try & publish a 'series' book before the early autumn, so, to my regret my book will not appear before you leave England. I am rather sorry because it contains some material which would have been useful when we are discussing Australian anthropology.

I try much enjoyed my short stay in Oxford & am at present feeling as if I had got switched off into a 'backwater'.

Kindest regards to yourself & Mrs. Mant.

Yours very sincerely

W. Baldwin Spencer.
