Dear Professor,

Notes herewith,  
I am still damnably shaky  
& am afraid it is locomotor  
Ataxia & not Lumbago  
that has overtaken me -  
ought to know by next mail  
when I get word from Dr  
Marten. I am doing as little  
writing as possible to excuse  
brevity, hope cases reached  
you safely, I know Camels  
got to Coahuadatta but I did  
not hear from Mayfield. With  
all good wishes. Yours sincerely  
C. Ernest Cowle
