My dear Spencer

Yours to hand today I was
glad to hear that Mr. Spencer has
recovred from his accident & am
a little anxious about her.

Your time is indeed very fully
occupied I hope you won't overdo
it. You should put in a week
with French in the Scrub before
returning to the University: You
appear to have come real out of
your shell at the Melbourneian
Socie, the Advertisers printed some
excerpts from your Speech - punctured
with laughter & Chars - & said that
when you sat down you were rung

hurly chancery. Why is it that one to hand safety? I hope you are
any reformer to a teacher in law changing the art. of its courage to
lawes (anglise)? I have wrote to
personally from an instance of a
man deluding his master in law
& I think it's quite an exploded
experience. I stand by you you
experience in packing & shall be glad
when I show that you are employed
in your new quarters. I don't
know how to do it but I have
labeled but I have telegraphed to give
you & hope to get the information
in a day or two. I don't want
anything out of the collection except
the few articles labelled with my name
the time will come when I shall
have to sell my collection & I do not
want to break it at the expense
of the sped claim that the law
comes to hand

Expedition after allowing for two
outstanding cheques. The £12/- can
be withdrawn after these cheques
come in; if they don't come in by
June there will be a charge of 5/-
debited for sleeping account. I
make our balance £108 odd but
for no doubt the Bank statement is
correct - I am enclosing Statement made
up to within a few days.

Morata is in a depressed &
depressing state, read before us entertainment
of expenses many people think it is
the beginning of the end of the old
Maii but at anyrate some hundreds
of men are to be thrown out of
employment for fair months others to
those with families means hardship &
misery: Under the circumstances I much
regret that I did not take Mallard

When it was vacant.

You will I am sure be sorry to hear that Mr. Angus Johnston was found dead in his bed on Monday morning. He is supposed to have died of heart disease.

I am enclosing leading article from the Register which I think will interest you. It has taken the editor a long time to digest my interview & you will notice that he has garbled my statement about the Malandras. Evidently the old Malandra - her breed in man of the best - is going to create some stir in the world.

I was surprised to receive a long letter from Byers a few days ago, he complains of feeling very lonely at the Charlotte & says the

photo of the Captain is in
a dreadful state of disorder. Since we left the States I am trying
to get him remodeled in his class &
in keeping of boxes & clothing
it adds me to concern his kind
regards to you. George's letter
on Lake Erie hasn't pleased him &
he goes at the first opportunity
to the city Missionary whom he accuses
of taking up the old Nelson & the
people making it fit in with some
local nobs tradition - Cook also wrote
happily he appears to have had a big
row in Adelais the same was also
with Mr Weston whom he was then
Ross has sold the Rodriguez business
for now in Mexico with his family
I hear that they are to have some
money when come over & the old relatives
shaffed off. Bushnell is in Newark
trying to get a removal & although
is coming down shortly it may be

Moss hasn't touched you
since we left the States. I am trying
to get him remodeled in his class &
Mally he promised to do what he can
in this direction. Warren won \$124
on the Adelais Cap meeting & road
a few ago. Much to their regret they
had to leave this friend further as his
bro. Warren wants the same for one of his
sons. Warren talks of buying a place
properly & very cheap in Adelais just
now. Most of our kids are down with
bad colds & measles notwithstanding we are
in the latter with it having rather an
awful time. Take care of yourself
all know & love to the highest
degree regards to Mrs. French & Standish
Yours ever

Billy

PS

Fred writes that he has
sold the missing horse black
at Hayes for £2:10:0 this
is better than nothing I
will remit to you when
cheque arrives
