

Aronia

28th May 1902

My dear Spencer.

I am enclosing a couple of challenges from which you will gather that the great Expedition is not yet forgotten. I have had two letters from the Geographical Society asking me to give date for lecture. They express a wish to hear the Phonograph records - How is Lindell getting on with Lambert slides? You should be just about settled in your new

quarters. Have you reported
Brennan & the Cow? Keddies
eyes mending slowly. Cars
talk of going home via
Africa shortly, their Tarowea
prospects are looking up &
their Salt Company pays a 6^d
dividend next month so Warren
is in high fella. He now flies
over the Adeline Cap making.

No news of Miss Lamberts
arrival yet

Sincerely

Yrs

J. J.

I'd give a huff to be able to
sing DAMN re tonight

J. J.
