19<sup>th</sup> June 1902

My dear Spencer

Just one line. I posted to you last night & yours reached me today. I am afraid we did not investigate the beliefs of the Narramunga women about soaring of Churinga further than that they looked upon it as devil devil but I will go carefully through my notes & write you again in a day or two if I find anything. Glad to hear that you are fixing up your lecture I predict a huge success. of course you will show the Rites, have you tried it privately? Wish I could be with you to know the

Shon a bit: from a financial point  
of view much will depend  
upon your business Manager. If  
you were in Admission there would  
be no difficulty with in feeling  
the same hall with the Grant  
of the Holy Colum intelligence.

You say "How don't he stomach  
if you don't see any more about  
Galen" Now surely you don't really  
think that I care too show about  
that sort of thing if I have  
ever had cause to find fault with  
you it is that you persist in  
throwing me into the foreground  
with lengthy accounts, as instances  
of your Business Speech, which you  
must know, & I cheerfully admit, that  
you have always been the master  
mind & least share of the work

It would hurt no more than I can  
wonder if I thought that you had no  
taste of a public letter as of other  
with a decent Man's My must as  
to expect to hear that you are  
pleasing up to Lords & fair for  
days & possibly with that I sent a  
note you. I am feeling kindly  
disposed & an entire from how &  
to with you would be very happy  
of good. I hardly can recall you  
was ever concealed foot for months  
& it disagrees with my today's paper  
from some particulars of the communication  
of the Classification Board Slut Board of  
Course) to my honor I find that by  
recommend that my salary be not down  
to a sum total of £320 per annum  
or £80 below what I have read since

Strong statement has been made is based  
from £1100 to 900 the price of the  
Adelaide land £150 & all round the  
Seniors Country <sup>& suburban</sup> postmasters are the suffer  
heavily - This infernal Board was  
appointed before the Commonwealth took  
no one so I am hoping that  
the Federal Govt will not accept  
their recommendations - Goodness the  
Chairman of the Board is to be  
appointed to one of the Federal  
Insularships at £750 p.a. - Hope  
you will return to Town very  
fit - Gill is mending. Fine  
days all the settled districts of  
Colony but none in the Interior  
The farmers around here are going  
about clothed in a 20 bushel  
smell. I mean the old man  
I see you off on
