My dear Spencer

Let me hear by return
 mail your definition of
 religion. Vide Contempt of Science
 Series "The Study of Religion"
 by Prof Morris Jastrow Ph D
 Religion is defined as "man's
 belief in a power or powers
 beyond his control, on which he
 feels depend^{ant} & with which he
 desires to enter into relation"

If this definition be accepted
 then Totemism with its
 Sacrificial Ceremonies is a form
 of religion? Write
