

Moonta

3rd July 1902

My dear Spencer

I am enclosing letter recd today from Mr. Patta, you will see that it is in reply to one I wrote to him. Amongst other things I asked if it was possible to make thorough examinations of the shells - which appear to be really Ceras - & take copies of drawings in two days. I also told him that I might call at Gawler & visit the Ceras on my return from Adelaide on the 18th or 19th Inst. Also enclosing cutting from Wodges Press

from which it appears that
Stirling our "great Scientific
Samuel" is organizing a party
- The Money order for £2:10:0
is amount received from Field's
Jorn agent in payment for
horse hire - It is drawn in
favor W. B. Spencer so be sure to
sign it so otherwise they might
make a fuss about paying it
for the go authorities are
absolutely idiotic on this point
This will keep the noes from
the door for a day or two!
I cant for the life of me
believe that the Govt will
reduce the Professorial Salaries, or
at any rate seriously, men like
Spencer & Irving know that if
they take this step over

Unconsciously will lose in Dallas
 Mrs shall have to put up
 with inferior men - By the
 way Spring is descended from
 a Colonial - You'd call him
 a baron - In the 18th century
 but Judging from the letters which
 the drawings are showing they
 characterize it is Aborigine
 who are sent off with a map
 before to any coming there
 and shall be expelled to finish
 up with the Hodge's etc to
 Coffin - He for a night
 on a row of seats with no feet
 to a blazing fire in the middle
 we are the Shawnee
 we traveled with you when
 you were with the H.G. to
 and spent my father's plantation

that might be seen with
 separate land and probably
 put a signature in his name
 and I of more power etc -
 and we never know it
 of our part in the work
 in some of the - well and
 to see it is mostly H.G. and
 signs that make it is
 to be kept like with a man
 and the intention of it
 that it is a series of letters
 and you to get the etc
 that is part of the work
 we to get it of the
 you may get the work
 a small amount to make
 it all over, please see page for
 to see the printed journal
 and also the etc etc
