My dear Frank

I am just to present. As
I informed Londonderry. Why are
I a most charming girl, if she can
of my other, but of her com-
firmance in not given if proper
have seen, present. The
this goes for reasons is a
capricious for a magistrate.
I must have been of others, or
themself, someone or.
We promised to give me
Jesse's, so the person now
else. You know of yourGraces.

The date is fixed for the Test so as to give the Gov't a chance of being present. I am enclosing a copy of the Hamhung drawings. In view of the fact that Staling has been there I secured drawings do you think it would be worth my while to go there? The climate is fine. I chewed it over carefully yesterday & in the afternoon delivered it to Doc Jack on the railroad. Jack is very curious about the Bolanqua! Am expecting their daily will write again in a day or two meantime thanks love to the kiddies & kind regard to Mrs. Spencer.
