My dear Spencer

Slides came to hand today
but no letter with them. They
are simply magnificent and if
I can't run a successful show
with such material I know
to be short.

Harrison has offered to furnish
and erect phonographs

Bill is going to get up
a popular lecture can you
purchase in Melbourne suitable
lantern slides physics or
chemistry & at how much per
slide. Kindly make enquiries &

Let me know as soon as possible
he asked me to write to you.

No suitable stairs to be got
in Adelaide. Should I have
a bell on the platform to warn
man manipulating lantern when
to turn on slides. Shall be
glad of any useful hints & will
bear in mind what you say about
using my voice

Thank you

Yrs Ever
