My dear Spencer

I have had a very hard day
 & am dog tired - Just one line
 today that your letter addressed
 to Havens came with list of
 slides came to hand today. Tonight
 I tried the slides with our
 Institute lantern but they did
 not show to advantage. We
 had not sufficient tubing to permit
 of holding the lantern close ^{enough} to
 the stage. I feel that the
 Adelaide show is going to be a
 big success but so far they
 are doing nothing to advertise it.
 The Adelaide Hall seats 1500 so
 if it fills the Geographic paper

that do very well. The members of
the Society have for a while. There
is no intention of giving manuscript
to the reporters - not much - so there
is no fear of the Adelaide papers
containing a foul report. Sterling
wrote today inviting me to dine
with him at the flat on the
evening of the 24th & offering
the assistance of his Demonstrator
himself, which is very good of the
old boy. He is evidently going to
stay in Town for the show. I
shall strictly stick to my text
but I may work in a humorous
reference or two if the spirit
moves me & I am well too that
overcome with fun. The fact of
my having to talk in the dark
will give me confidence and besides
