My dear Spencer

Your note of this morning  
 filled me with a great & abiding  
 joy & I am looking forward anxiously  
 to arrival of your letter with particulars.  
 I have not felt quite happy about  
 the Mara & Anuela but could see  
 no solution other than that forwarded  
 & with which you were inclined to  
 agree. At first I felt not sure  
 that we were right but on looking  
 through my note book & finding  
 that the son of Roamburica in  
 Anuela was born Roamburica I felt  
 a bit anxious. I can make no  
 gains at your solution of the  
 problem unless you have fastened the

The intermarrying clans Marungun  
& Purlat for instance applied  
the forms of relationships - Marungun  
mean spreading - to those two classes  
only. I thought of this some  
time ago but gave it up  
as untenable. Today it occurs  
to me that perhaps you have  
been helped <sup>too</sup> by some Tolomic  
marriage restriction rules of which  
I have no record further than  
that George King Murland may  
only marry Ema or Iquano

I can imagine how you  
chortled when you solved the  
trouble & hope you are telling  
me in coming letter what  
led up to it. I should much  
like to celebrate the occasion  
with a little Thulle & when

I wish this I'll send to you:

Reid began his University Belton course of Shakespeare in Adonais to a good home Sir James presiding & judging from the Register notice the old boy is in for a good time. He has shed his Presbyterianism & is now a Unitarian having succeeded Rev Nelson of Hall whose care gave us a rather rich if not swaggy congregation before he took to adultery. Look up your notes of Aug 18<sup>th</sup> hadston relating to Pelham I can find no mention of its connection with Hathaway's ceremony in my notes of that date but I have a hazy recollection that the introduction of Hathaway was attributed to it—

Tomorrow I hope to receive the promotion

I thank

Yrs ever

PS I don't see how it is possible to apply the relationship terms to the four class—that is for one man to apply them—of the Child if is born into the same class as his father. I'd give a huff to have you better here tonight  
Love to the kiddies
