

Moonta

12<sup>th</sup> Dec 1902

My dear Spencer

The Doctor has just given me a final overhauling, the pleurisy has gone. Today I am allowed to take a run out in the sunshine. I have been confined to the home for nearly three weeks & to this room for over a week. So you can imagine how glad I shall be to get out into the fresh air once more. May the devil fly away with the climate & Moonta in particular. I am hardly ever free from severe colds, the office is very draughty & the home with its numerous doors & windows is nearly as bad. I shall be glad

When the time comes to feel creative.  
500 Years of the 6<sup>th</sup> Come to hand  
Wednesday (I was particularly glad  
to get it; you made no if you  
are confident all attempts it was left  
in a whiff of the Contract brought  
the various functions find in that  
is that there is Calmately things will  
be as in a year and time to  
the manuscript definitely will be a  
story of growth a fact so long as  
you start. go further than  
a feeling inspired to give things up  
to go time with a great deal of  
not enough. At in the eyes of  
will going to be for now  
perhaps when he goes to join the  
Angel through he will make sense  
by having sufficient to the history  
to clear it of its defilements. My

not engaged them to him. I don't  
believe to see the old sufficiency  
phrasing of you did. So open  
enjoyed the quiet hours gathering,  
you were afraid my from grace. etc  
The first time I see the commission  
to admit that you enjoyed sense  
a function, if you don't refuse  
yourself together you will get  
hardly into a Society of  
Up the lamp was played as a  
divine instrument but it is not  
only the Miles paper that it  
influence for it is the National  
Music of Old Ireland where it  
was played in the Circle of Stars  
show a strong family name (Foster)  
required time about the time I look  
was supposed to be fairly around  
in the end. They were in great

made about Melba Hasko of  
making a special trip to Adelaide  
to hear her. I don't know  
what sort of a reception Sanders  
got in Melbourne but in  
Adelaide all classes made a  
his god of him, he was invited  
everywhere & roomed in the hotels  
as the god inspired apostle of  
physical culture who was going  
to regenerate the human race.  
Preached about in the papers  
& stirred us up to a religious  
interest.

Kane is an interesting crank  
who turned up at Alice Springs  
some years ago in desperate circumstances  
I assisted him with Cash, persuaded  
others to do so & finally got him  
a ticket with Wardson who was

2/12/02

144

Then going up to prospect the  
Murchison Range country for an  
English Squadeer. He remained with  
Hazard for a few months saved a  
few pounds, scrupulously returned  
the amount. I & others advanced  
to him, & went South. He is the  
Son of an English Church Squady  
at home & was for some time a  
Medical Student but finding medicine  
too slow he betook to his, since then  
has been a rolling stone running round  
over the Earth's surface. He claims  
to be the one man besides Barlow  
who has made the pilgrimage to  
Mecca & he is said to have published  
a work entitled "Six months at Mecca".  
After leaving the Interior & while  
engaged working on the More Creek  
Bart near Oodnadatta he published

in the Pt. Augusta Whapatch as  
series of highly coloured articles  
in the all-merciful Range Country  
of these are the articles he wants  
to show you <sup>has read</sup> the few  
more than are some of proportion!  
in which he traces out that the  
purchased his of that of London  
of Edward here & of the  
in London. Finally he became Editor  
of the P.A. Whapatch, part about  
that time our heart came out  
to be at once more asking me  
for a copy & stating that he  
would be most interested!  
I took  
no notice of his letter & did  
not hear of him again until  
a few months ago when he  
wrote from Queensland enquiring

whether or not I had found his function  
Articles before & if so would as  
to send through to acknowledge  
our indebtedness to him in your  
forthcoming work! I did not  
reply to the letter hence his  
inquiries about my being  
He was, so he says, a Colleague  
of Brad's on the Paul Mall  
Faculty when he & Volney Davis  
participated in the Whapatch Debate of  
Boston Baby tax. It is that I was  
perceiving the pamphlet coming out  
indirectly and was in London & had  
You had said in your about  
old of your inquiries let me  
know what you thought of it  
I was "kindly" in fact I must write  
to the old copy. He has not been  
at all well since he went to London

finds the climate too severe - or  
is it the turtle soup. According  
our papers London Correspondent he  
(Frangor) lives in an atmosphere  
of money bags & blue blood.

The Geographic paper has  
decided sternly purchased with proceeds  
of my lecture between Alice Spang  
& Charlotte Watson. The latter professes  
to Alice. My recommendations in  
which they originally concurred was  
that stores shd be sent to Cal.  
Some one - I'm inclined to think it's  
that ass Benda - has been spoiling  
his nose in. There well as a  
sharp note expressing ~~my~~ regret that  
my recommendations has <sup>not</sup> been carried  
out. Of course Bradshaw went hurried  
to see the Neggers that he had  
nothing to do with and my eye

~~The [unclear] [unclear] [unclear]~~

Miss Lambert lectures in  
 Adelaide in aid of the  
 Wallaroo Presbyterian Church on  
 the 2nd & she is returning  
 Stirling to reside. I am  
 making to several of my  
 friends to pick up & give  
 her a good time. We hope  
 to get her over here for  
 a night before she finally  
 leaves. She was looking wonderfully  
 well & bright when we saw  
 her last.

I am glad you like Prof  
 Henderson Stirling thinks no  
 end of him. I must try to  
 get an introduction to him next  
 time I go to Town but if  
 old Stirling introduces me

I have got much chance  
of a trial. I quite  
understand S's allude  
to very funny & a  
little pathetic. The old  
Chief Justice <sup>at his own table</sup> ~~Reformed~~  
surprised that I did not  
announce my research in  
conjunction with Prof. Shering  
& I plainly told him  
that Prof. S was not  
an Anthropologist that he  
had had no training in  
that branch of Science &  
that you had not had  
learning from them you  
were the only man in  
Australia who had the necessary  
knowledge of the subject.  
Lance Shering said to me

after the University lecture  
& you know fellow old Seds  
very proud of you & will  
nearly killed me & I have  
often smiled over it  
Once in the Shering family  
& a death wish family they  
were too - look upon me as  
in a paper perhaps of the  
Doctors & I am sure  
that they don't think that  
the whole of our ~~work~~ firm  
word has been suspended &  
guided by them. It is the  
fun of the world to be  
that sometimes old man  
& frequently when one is  
receiving for anything &  
following -  
I am sorry you heard Lord

Many say he would like to  
have seen you he is really  
very keen on our work & I  
don't know any one who knows  
our work so well

I suppose you saw Prof  
Lorouge in Sydney I saw  
no mention of him in  
the papers. Am enclosing  
Allende interview with Prof  
Henderson much the best  
account I have seen of the  
subject

Kind regards to Mrs  
Spencer & love to the girls  
Stewart

W. L. G.
