My dear Spencer

This new development of the
 Alina muddle has troubled me
 all of a heap I can make
 nothing of it & I can think
 of nothing else: May the devil
 fly away with it Did you
 not tell me in one of your
 letters that the previous solution
 was based upon a note you
 got from George? I was under
 that impression & felt quite
 certain in my own mind
 that you had got the true
 solution of the problem & it
 puzzled me on two or three occasions
 to know why you still expressed

some anxiety about it. I have
poured over page 69 of the Open
letter of it is bound into
my brain but it does not keep me
asleep. How on earth you are
going to apply the relations
I am all round it. Murrington may
only mean partial in to us as the
relate of the thing. If you were
only rather a deep brain service I
should have been with you last
night. I am sure I to see how
you make it for me. In the
letter you said that you were
traveling along "broad" full details
I was so without any hours
necessary delay for I shall not get
any piece of mind until the
information reaches me. Seriously I
hope you are not overdoing the
substance for the Station

Since meeting what has gone before I
has gone very carefully through my
Notes the Modern Record and I find
the statement many times repeated
that Murrington means only partial
in the Mara & Wallia matters
only Room here in the Anala so
I claim the idea that you might
have got off the rails now to
the wrong track. Again I say
it never occurred to me to find
that you were wrong everything
fused in to so beautifully that you
Certainly must have had some
evidence to go upon to find
I am glad that Horis has been
appointed to the Capital Board
Our God has not a real good
new from here in Graham Street
a Civil Engineer & Senior Superintendent
Inspector of the Railway Department

There will be at least two able honest
level headed men on the board
Whose does H. intend publishing?

I wonder if Siebert looked for traditions
of reincarnation amongst the Dieri
Surely Horrell would prompt him to
do so. Gason's account of the
creation is not at all satisfactory
look it up at page 260 Nature
Notes of South Australia & tell me what
you think of it. It looks to me as if
there is a great deal behind. The
Reincarnation theory is just one of
the things the Niggers would not
like to mention to a missionary

Must have another cut at page
69. All post rate here. Hope you
people at Brandon are having a
good time. Practically we have had no
summer here. Steam the pit

Yrs
