

P.S. I am going to
reply to your letter is
there any thing he could get
for you? He wants up by
someday if he can do
any thing for me in
his business home

1903?

My dear Spencer

This from the Western American
Correspondent of The Southern Cross
named John Forrest "He is the
biggest man with the biggest head
& the biggest heart in the Federal
House & represents the biggest State
with the biggest fiscal yield, the
biggest water schemes, the biggest
surplus, and the biggest revenue in
the whole Commonwealth" How
much of this is true?

Forrest is a very real God in his
own State -

I went through the slides today
they are a very fine lot superior -
taking them all the way to the front

General reader. See page 241
at bottom of House read "but"
is the Kachata Amamatsura Brothers
is repeated by Kakedgi of not
Chapelhouse which belongs to the
Nanamingo. The division or
grouping of the various tribes
into Nations is a good idea

lot. You could a very fine
lecture around them beginning
with a brief description of the
Country I feel almost tempted
to try my penicil hand
Today I read through the
last installment of the paper may
the Chapter on Religion of
Johanne Brekers & Orangelan
are very fine the latter must

It is a real good time at
Nobvalge last night he is a real
interesting fellow in study & talk but
his Whiting proceedings sound up
with Cress I declared I have with
a profound feeling which was only
acknowledged after the implementation of
the very passage. It is very clear
on the subject of religious beliefs

how you are a great deal of
honore & I am imagine you
Teaching for the decenter alone
it has finished. I think all
through the new world is being
million in a lighter vein I
that mean that it is a lesson
scientific but surely that you
must have taken a little more time
just to make it attractive to the

elementary of course amongst our
Niggers insists that the ceremonies are
distinctly religious in their nature. He
argues that religion does not necessarily
involve a belief in a controlling creative force
so long as there is a conception of the
infinite. There is religion in its elementary
form & so on.

Charles Gore wrote the other day
from Croker Island says "My arm is
in full work again and appears OK. The
Dr when I got him to examine it at
Warmin said it was a clean break &
the bad setting had shortened it ten inches
he wanted me to have it broken again but
as I have not such a long time to left to
worry out in the case of tears I decided to
let it rip" He goes on to say that
some Malay Proas were recently attacked
by Niggers within a few miles of his
affray & all hands killed except two
one Sleather the old man

Yrs ever

J. G.
