To my letter, no mail has necessarily been sent since all let me hand you from the photos. They are as good as I had hoped. I am mounting them in a scrapbook album which I shall put for your pictures alone. Thanks also for the pretty book which you sent. I trust that

him would jeopardise the success of the book. Perhaps it is as need to lie for the present. If I have read the red savage correct feeling will not have things all his own way, in it clearly understood that the OS is to edit the book? If he makes any fair use of my notes I shall go for him a vigorous if not polished language. Glad to hear the plates reached you safely keep them as long as you require them there is no hurry. The matter here is too hot for photographic work it would hie a print to
develop place these acquired. Sue is unable to procure any one, though it appears all always on the look out. The green frog is a beautiful green, even alive. But changes color in points. I wrote to the head of the frog and lagoon department has been trying to get some specimen for this kind but without success. These frogs are rare, but when we get another Mrs. Guion will try to paint it or at any rate give you the exact shade of green. I have not heard from Edna after this letter. She said she was very busy and had not time to write. I hope you are getting along well and that you are enjoying your Christmas holiday. Please write soon and let me know how you are doing.

Yours sincerely,

probably got no that says. Have not heard from Horn what in the name of the devil father does he want to write to me for? I quite believe he is a good fellow, in time he is. Since you have shown a high opinion of him, surely you don't think there may be prejudices against the Anglo Saxon? I should much like to read an account of the Aesthend numbers of the Horn Expedition written in the chaste style of the Spectator. Such a contribution would make the fortune of any paper. Am sending my brother Demosthenes Parooques by Keunts.
