My dear Spencer

We are off in the morning and I am too excited to write - This afternoon, much to our surprise, the Officers & men of the Central School presented my wife with an address & a handsome banner - I do not intend going to Torr unless called on officially but in the latter case I shall do my level best to have a day or two with you. I would

would to see you if only
to glaze over our work to
which I have made some
interesting additions this
month

With best regards
Believe me to be yours

Stanhope

Yrs ever
