My dear Spencer,

Form and memory of these places and scenes in the reviewer and all the Herberts of the soil and—Henry Herbert, who inherited his father, perhaps a few years ago. I believe in the efficacy of prayer. If I had the power, I should petition the throne of the Lord to protect you from the dangers of your countrymen. I fear, every year, the effects of the bitterest blights of the land, which begin to fragment your dreams, being scattered to the four winds. It is true, from your place, I would not have isolated any part of the present structure regularly and on or about your land. It has absolutely nothing to write about. Since my return, I have been confined to the house and an awful attack of pain brought on by the heat and bad weather. The ship was not barely recovered, and I am really incensed to the saddle for a long time. I went at her coming, and I am quite in the northern trip. It is perfect weather after the preceding mists and rain, and my head ready...
