My dear Spencer

Included cutting is from
today's Register - No news
from Todd so that I shall
not be going to Torr tomorrow.
Cinematograph idea is good if
the funds will run it but I
think phonographic records of
conversations to be even more important
- lot of cameras ^{to} should come
out of the general fund &
even with a hundred pounds
there'll be no margin for
contingencies - We should have

will make bal light buggy

Yrs ever
