My dear Spencer

Union Bank Adelaide
in acknowledging receipt of
cheque for £500 credit
"Spencer's General Expenditure"
writes "As the expenditure is one
of general public interest I
do not charge the usual
Intercolonial exchange on the
cheque sent" This varies as
25/- he goes on to say
"As regards your direction
that either Professor Spencer or
yourself may operate on the
account I shall be obliged if
you will get Prof Spencer to
send us written confirmations
of this as it is necessary that
such an arrangement should

have the written sentences of both parties " Please attend to this & send them specimens equal in written on 1/2 sheet of paper. I am still wrestling with an informal cold & not feeling at all well. The or two letters has appeared in Adelaide papers suggesting that it should take an improved prospect with us: a rejected applicant for a letter - a wholly impossible individual - is trying to work up a little agitation in that direction. Ho. says the thing in the bud I am working the Minister of Mines saying that under no circumstances could we agree to allow some

of Expedition. I am
waiting for memorandum
re Browns letter to the
Premier you evidently forgot
to put it in - fees
informs me arrangements
for cartage of boxes practically
completed at prices varying
from \$30 per box to \$100
down to \$12 per box to
Alice - very reasonable
Considering state of road
may be Lord and Capsons
showers before before we start
otherwise we shall have an
awful time getting through

I wish we could run
a very light headed buggy
just to carry you & the
photographic stuff. I shall be
yours ever

F J G
