

Johnston has
brought Inspector
Sands and my
off

Moonta

Friday night

Oct. 25/1900.

My dear Spencer

This from the leader of the Register
Staff today "When do you propose
setting out with your capedulars? I
want to give a good table column
photo of yourself & Professor Spencer
when you do. Can you supply
us with two Cabinet photos in
good time so that we can have
it in hand, and any particulars
about suits or anything else would
be gratefully received. Is there any
chance of our coming to any
arrangement in the matter of
supplying notes of your doings
on the trip?"

What shall I say in reply?
I think we should let them
have the photographs

Yrs
J.G.
