My dear Spencer

No news I am simply  
waiting. I had almost written  
praying for rain if only  
there is anything on Russell's  
Cycle we should hear of  
good floods in Jan or  
Feb. These deplorable accounts  
of the condition of the country  
& falling rain we shall have  
to send up horse feed -  
I am waiting for copy of  
that magazine cutting about  
your father also where are  
the accounts you spoke of  
enclosing? Present balance at  
Bank is £170.4.6 by all

means see before soon let  
us show definitely what we  
are to expect. I think you  
should tell him that we  
shall require £1500 in all  
you'll find there will be no  
margin for extravagance even  
with that amount. I am  
dissatisfied but not surprised  
to hear that Langdon is having  
a bad time with those who  
oppose Manshead Hall - He is  
is opposed to Hall the & I  
had some battles royal about  
him here. Needs to say I  
forget to tell you for Hall  
I do hope he will be supported  
if his not then some or  
later some of the other  
Professors will be allowed for  
their religious & or rather absence.

of religious opinions, & religion!  
what a lovely thing it is to have little  
Chandy here to do with us nowadays -  
He is fairly intended to love you  
up on Thursday the old fellow  
must have been brooded up or he  
would have turned up. He rather  
enjoyed himself here & is returning  
to Malvern in Jan'y to join  
the Presbyterian Church for a  
few months. Mr Piers man is  
appointed to Malvern & it is  
an open secret that Sumner  
goes to Paris. Labor party think  
the Mr Wallace man gets too  
much sense hence the Parliament  
room. Some still building  
Castles in the air about  
Leicester & if only some would  
pull I should be perfectly  
happy. Niggers about the

Alice are reported to be giving  
a lot of trouble during school  
but I think half the reports  
are lies - Reid sent me "Alma  
Mater" today containing a  
capital picture of you. I am  
still keen on a phonograph  
& feel sure we could get good  
results. My idea was to get  
records at Alice & Barron &  
then send the cylinders &  
perhaps the instrument back.

I am not happy about the  
Cinematograph films will they  
stand the heat through you?

Its midnight - good night -  
Shun the

Kind people get heaps of big value  
stamps from the Colony in parcels of  
gold - do you know the banks?
