

66

Anatomical Department,
Museum,
Oxford.

Dear Howard, July 2. 85

This is doubtless
a rather interesting & in some
ways anxious period to you & I
trust that your start may be a
fairly satisfactory - more than this
I suppose it is useless for a young
langer to expect.

I am afraid that it will be some
time ere I have the chance of
seeing your office as it is not very

intention to spend much time
this summer in Newcastle.
My movements will probably be as
follows (1) a week or so with a
friend in the Orkneys (2) a week with
our people in Yorkshire (3) a week
or two at Colne with Lillie (4) a
week in Oxford with Mrs. K. Dick +
someone else (5) a fortnight about
with Cecil somewhere - along the
River + perhaps the Barroisau Highlands
a the Hazy fringe. This
completes full up my spare time

66
save a few days which I want
to get with you at A.S. if possible.

Wendy just asked me to go to them
when they (his family) are staying in
Derbishire for a few days but I fear
I can't. This start will

stop you getting much vac. I fear
but perhaps under the circumstances
you won't mind his.

I am very sorry to hear that your
Mother does not mind (express the
expression) as rapidly as you could
wish: I should have thought that
the last fortnight of lovely weather
would have exactly suited her if well

too hot.

Tulie Cohen & Joe are with me now. the latter reads hard but Tulie & I in the evenings always endeavour to get a little sketching done.

Very possibly Smithells will be with us this week end. Yesterday evening with Featherstone & Woods (up for a few days with the former - perhaps you know him) we formed an Owens party of 5 - not bad for a long vacⁿ in Oxford.

We leave today finished bringing here the Pitt Rivers & now are looking forward to a little rest & quiet time for private work.

W.M.S.
