Thapate's *Thapate*.

Endura reports from Malanalla
 that he had just and caught a
 "Thapate". He did not speak
 but cut and made his tongue in
 my (supposedly white bell) and then
 cut the skin. They 6 men reported
 that of course he was *Thapate*.

4 men described. 3 apparently
 were *Thapate* women with red
 ornament = string to be up your.

Thapate was black with white
 line down the side of the
 face. Thapate a painting.

had a shield & two round neck
 a white ball apparently made
 of wood. Been advised for

painting a good looking thing
 made by K. to when the

Malanalla lay down. He

was 2 days with game sticks by

Old Thapate, & reported about.

Thapate! & all over.

The plateau has been cut into
by ridges into valleys which have
been modified by the river flowing
any to the full so that ridges
now run up from the coastal plain
to join the plateau. In some cases
as near to the MacArthur station there
are ridges have been separated off
and now form isolated hills.

Nicholas Drama 102
April 3-6. S. 110-11

Randallama, W.H.

There is a number of small
spare 10' x 5' post-and-beam held
stone (amphibolite). When and when
granite, limestone and amygdalite
post-and-beam they have probably set
them in various directions then back to
perform. Spill-stone may mean most
behind him when post-and-beam under
his own.

All the same Kertinga (Mangrove & Mangrove)
which has post-and-beam, especially
and the wooden men playing to
fringe them to the,
