July 4. 1911. Tuesday.

Left Darwin at 8 with
Nuttall. W.S. Campbell (D.S.)

Judy
+ Peter. Reached Port
water at Darwin Creek. On to
Rennell + Adelaide River
where had lunch. At Rocks
Creek saw Lawrence. Peter left
Pine Creek at 5. Files with
Shepherd + Luffey went on.

Plath + self stayed behind with
John Nuttall + Campbell.

Rotten returned camp in water
with hills that surrounded us
beside Cambridge Camp.

Cathy Camp + Jim by photos
into supply with by long leaves.

Kapala + 'beats' in flower. Great
Scum + Jim 'blow'. For the most
part very dry island. Country
to be very small. Here + there patches

of mountain ash and Melaleuca

Camp and hills also number kind

Bonanza

always proportional I and about 1-2
 M. High. Seen the a distinct species.
 After dinner at New Creek later Jiles
 self & Jiles out to camp about 1 pm
 under oak close to Jiles house.

July 5. Wed. A rainy night.
 Allety - skinned birds. Jiles laid +
 Doble (?) D. Leach. Ten from Brown
 eye ~~with~~ ♂ white eye ♀. Jiles -
 self walked across to Jiles house. Ten
 quail stuck on a tree. ^{Blacky} M. Long?
 five notices that they are elusive.
 W.S. Campbell. She came in. Latta and me
 that Miller when we came to Montrose
 for our horse had after some course
 found August Hill at Banks Bank.
 Started at about 3. Cramped with
 drag and 11 o'clock. Saw distance
 but not very easy in with 16 hours
 also ~~the~~ troops in charge of Ten boys
 a chain and neck - that peddled
 Ten more boys who had escaped from
 jail - travelled through from Robin to Red
 before long caught. D. Abbott - Ten
 Jentice ~~noting~~ no.

County off at just divide. Then

points into point Imboden about.
Cunayon, Plum, beautiful Myrtaceae tree
with pink clusters of white flowers. Sweet-scented
Sesuvium, Mimosa, Fuchsia, Kakiki (pin-
tree), Callery Oak, water fern (very white fern).
Black wattle, Struthio tree.
To the west part of mile 7 Telegraph Creek
about 4 clear wide.

Camp at Cullen Creek about 5.
Put plants in the sack.
My camp about 100 yards. K. Allart
+ proper Dempsey + Sula + Campbell.
Crawford into dusky Fern II.

July 6 Sunday at 6:30 to 8:00

Plants very better in pool. Started about
9:45 points empty. empty undulating,
Possum tree into crabapple about 190 ft high.

Fennel. Plant of white clusters of Myrtaceae
tree. Ah, small shrub (not for few miles
up to 600 ft high) ~~Callery Oak~~ ^{dull green} ~~Callery Oak~~
white central vein. 1 flower rather like

in parts. Spent when kaymen
 came in & like found what in
 behind out. Plenty of Kaymen tracks
 about.

Talk with John about John Row
 nearly day. Open along tracks for
 less in 1870.

Fine of Great road light
 did 1890. Erected "Comrade on the
 S.T. One".

Hill rocky behind camp with
 mud-crater pool.

But in morning & just after
 started but water left in with S.E. wind.

For some part of way along the
 Tully's line cutting. Here & there
 extended vein any to the south over
 flat country with distant hills.

July 9. Sunday
 Left 11 miles early 9:30 after breakfast

Spent a bit of day to find amongst hills, find
 several other by a star water on one spot
 rocks with smooth by 1000 m. hills
 small frog.

10-mile creek
 Bean tree. frame of man who shot
 hanging in creek. Lead and Silver
 finds etc. a trail out early the

Large jacks with white markings
like so. Larvae on southern pine
always in company.

Very odd to 5 seen, structure similar
to pine but which does with the pine
ventral two years before.

5 mile creek 2 mile creek.
Remains piece. County flat with
felled land to west & S.W. Small
pin red ant hills - sandstone
also remains of Carboniferous. Chert
was coming from my tall hills - so
fall that no ordinary operators could
climb. ~~Some~~ Some were from lower
Pulaski town (Mt. Kingston).
Telegraph (M. Perry) - Camp near
Telegraph - appeared 1874. Remaining 7
remains of the Telegraph line
between West (Clinton) & T.O. were
pulaskian (Holland). (Perry was
found Anderson on the side of the
hill only west through stone &
lythrod then being simple in change
M. Perry.

July 10. Monday. Working early. Arranging
plan etc. were from No. 100 (Clinton).
T.O. (Dum) to 100 west of cattle, with
red water - could find. Carefully see the
decided not. Needs to go to track.
After to Special "Perry" on bottom
of some area with small hills of what
are each part of - especially ventral etc.
Near a change (H's) in study with.

July 10 / In Davao

with Belmonte
from the village

more about 3 sandstone, with
with strong incompatibility in the carbon-
schists. Dani R. to Fichte for
Carbon schist from K. Meani +
Edith to 7 miles from K. Meani +
Sandstone remains - also abundant with
obtained within 1/2 hour of Sandstone.
Platen Sandstone exp developed to N.E.
of beach, from edge of talusland in
the North with some mica.

R. limestone with quartzites later
with some mica of limestone (as
near N.W. station). On the
the side K. on the western side again
with beyond Manda Creek, the rock
is the about Sandstone. At Baen
swamp + little beyond still a same.

Kabibi for on post road + also
Cypress Pine,
Kestry timber on top of plateau,
Just on limestone pine at white

1/2 mile south party
The Carbon S. side was
east of Fichte's

one room. Mr. Campbell came in
along Kallensis but nothing to be had.
Mr. Fichte of Black Bay - about west
of Mt. Tied I with him. Very
strong but I brought also French
a red - slender parakeet +.

In aft by + Foster Holland left
to go round + visit sub-lord
canon - horse belonging to Mr.
Kuyston.

In morning mail to S. East at 11-
with diary letter to Administration
framing report by Watson + Foote
new Co. D.A. When to Hon. E.
Friday. Piller. March. L.

Tuesday July 11 Up study.
had 1 1/2 hrs with Dyan an Black fellow
re-organization etc. got into
re-organization report kind of note of
sub-division etc. Packed up Mt
Perry for me 2 stone 2 plan knives.
then cart in one of Cuyano. On to
Manda Creek, 14 miles 1:30. Camped
at end of creek. Along tree limestone
The 2 1/2 miles timber of post on stream.
In aft. searched along creek with an
excursion. Then with Black boys on
stone area in search of specimens etc.
'sandstone' hollow trees. Got heavy

Full moon

'Meyjet' midland fern

Grass in water + damp ground
Shrub.

one night

big low down on bank - on ground.
Evening shrike hawk till 10.30.

Wednesday July 12. Left camp

9.25. New cart in buggy came along
quartz. Story was of poor cart,
rough track. Cyperus pan. Kobbie.
few big "munga". Bacon scrub
at 7.30. Muddy foot. Camped
under Swamp cedar - which had broken
for ever & marked King 1871.
pile with K. camped here during
searching O.T. line. Salads. Linn.
podsoloneum hemipete. Out in scrub
into black. Begonias at 10.15
from the. Evening shrike.

Thursday July 13. Left camp

9.15. Stink O.T. line about 3 mile
from camp. Picked this for 3
miles. The track into scrub to SW.
to Litchie Canyon & Swamp land.
Nuth. Karyon fern. Dottle (Corymbell)
Looming in mist. note dry, w. Great
beech. Fern. Ranford came in with
darker tea. My had some time
'Meyjet' with midland fern. Went
over stone with Elvies - cattle and
found middle bed. Found some
knew many also about 20 yard and

Turkey clothes.

of Key Creek. My bad evening
collected nothing
trying to dry plants
etc. till 10 pm

files on way had my hi
long up for De Borne. 6000 sticks.
Go into dry stage in to Alice. Only
out 30 head.

Leitchia lay on small shallow
part water on swamp with water
the lilies. Boys out searching
for Fuller etc. Got small - one
only with flat top. rest

Bulbinus-like. Same as at
Raoni Swamp. Jalapa - pigeon
+ cream. Transcripts heavy at
night. Camped under Swamp
etc. Ret any - collected
all specimens. Took to dry plants.
few many of them unusable.

Dudley. July 14

rather windy
night. no dew. left camp 9.10
Maybe sent to Raper City where
it crossed the O.T. line. Then straight
along line. Come small brook about

about 100 yds. from camp road
Laysan

Brown Hawk
to Yellow
Cattle → Small
Bones two Olen
bit of mandible. Bone
small skull

Jacobus put at summit

Quartzite rocks outcropping on the side
of foot of mt. was covered by E. from
Hills, along. Small pieces of
the into yellow sand when
sprung into 3 into red flinty rocks. Small
yellow piece from small cup

1/4 mile land of "Ironback" looking across
like the Ironback of N.H. - West. White
granite, alluvial soil + white outcrops.
Latter likely  and soft green land.

Water in fine string back. Best
Bearing country called "Dutchy" locally.

He was with Seth Edwards
also with a fine one surrounded by
blocks in the Victoria R. afterwards he
affiliated a company of the United

in some slightly undulating country.
Most with various kinds of fern. Granite
+ quartz + clay + sand. near Providence
K. Hill saw every of yellow back tree.
Country near here very sandy. Camp at
12-30. Muddy brook.

Spent aft. in spring up → 4000 ft. (Holland)
Specimen. saw shaggy black woodpecker. This.
plants + Holland came in about
3. Every skimming

Saturday July 15 Left camp 10. very sandy
road 5 farms 3 miles. on to Eastern
Haven 4 miles with some of low hills.
Small sandstone. white "lithic" outcrops
alternating with red from soft sand
broken - better land. Open forest. Land

more pale at night
by long pale black collection
Kangas in byca
Salata

Blowdown: plenty of *Memora* *Ruficollis*
Ptilin (somebody), *Exidia* *removing*
out hills dry place. on to 2nd canyon
of Popo for muddy foot. *Spizella*
Bonasa *leucosticta*. Near the in foot.
Dr. E. Sterling Creek 8 miles. 2-30 pm
good catch. Bon-Tall and
hills. Aft. dry up. foot
rather muddy with *Merulius*
Just seen mud - in water - in
dry bank. Some *antivater*, *removing*
long black black collection. *Spizella*
wing. *Salata*. Aft. collecting
shiny black collection.

Sunday July 16

Left camp 10-5. Popo Creek (1) to
north of us. some rough crossing.
at foot hills and with them became
less in number. such country more
substantive. Rainy day with foot from
Creek. Occasional water holes with
open patches with good grass. *Merulius*
Popo *lakes*. Good wood *white* *grass*
(one from a seed, what rank small
leaves to *lakes*). on to 6-8 miles
Abraham *by* on a beautiful foot

Checked with about letters. Reminded
mostly by paper books. Not mixed
with sweat from my nose -
sweat came like hot out canyon.

Muffed paper I staying full entry
full. Chestroom (Bay Room) Cat
pile + small caudal path (P. Thacker)
Shed with. arranged blankets etc
saw cut. Pop worked clothes.

A very Woodhouse full sweat
sandstone only? Curious (Cutter
Cauldron.)

The way in cool and unlighted
space at no-land. Skinned like

Monday July 17. Cool night. 40 F.
clouded at 10. a warm front land

to better things - source of River R.
mountain back. Head south

'Cany' from saw pine. Body back at
foot with tracks of creek with beds

of limestone which honeycombed, after
short of water came in some spring

going in at the spring. Small mountain
2. Pieces. Black water and beds,

1st of later into canyon - blue hills.

Two or three heads to the stream.
water very very turbid. Felt like

swamp. A pile of thin black logs
followed up over back. Substrate to

Angled Rock 40

Saw a summit as at Steadings.

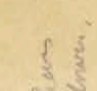

Alaska from to Northern Spring about 4 mi

Shelby. Ste. March 2nd very hot, much
any to 3 1/2 miles of Rain. Count
equalled with very fine precipitation.
Sediment fine. Plentiful. White
Cedar - every cedar. I read from
all road water run - fan palm.
from. Further. Near the canyon
with fine. The Ste on flat. After
about 2 miles (low by road) cedar
to good water. Near a River - west
a county by way. More with
granite. Not limestone. Many little
creeks with limestone. Many down with
River. Common granite like some
mountain. "Limestone" of limestone in front
bordering out in fine shale as
found down below. Good
valley to river. Little in mountain
valley as in shot. By camp creek
about 4 pm reached camp place on
River. Reached just with
"paved" in river which showed land
during night. Shows that valleys -
long way. Got from
on by land. Under canyon river much
worms. Camp on limestone.

Monday July 17. After breakfast went
down to River. Really pretty with
Camp July 18 by Hot pack road
bordered with fine. Precipitation as
with water plant in stream. Water

to shell for a few more. (p. 10)
 work cutting down a few more to that in
 could get photos. Some just water found
 near a limestone cave with a small
 water fall beyond. Made a clear hot
 pear of carbonate present in few bottles.
 biggest after July. The night before
 he had caught large cat fish (about
 2' 6" long). Rays caught this. Litter
 in ground with hot steam rocks. Put
 some near down its well mouth.
 spread hot water in so as to cook it
 well.

White ant hills.

From word tree when
had the cut by
one not good.
After 3 hours
ant hills had
to get
O.T. line
even cut
some
line &
for
summit.

W. reports spend night at. After this
examining white ant hills till 7:30.
After lunch to lagoon worked in light
plant of *Nelumbi* cut too much
and *Chama* with red fruit.
Off till 6. with black. T. stars =
Tennis of relation bit.
Working case in 5:30 after about
20 miles walk.
Arrived with machine for evening
in morning.
2 feet fence.
Even worn with plenty mosquitoes.
Found in early of *Pan* in off.
Faded in *diarrhoea* *Pan* in off.
Very small quantity.

July 28th Saturday. wind in night
with wind during breakfast.

Examining ant hills with Shepherd.
Ignited fire in one but wind too
strong. Smoke came out of holes
on surface.  Case
Like the protruding from surface.
Left with machine. Getting nearest
of Mungarait instruction clearing.
Plants around back at 11:30.
Files only open few ant hills. In

late riding and apparently associated
with Ternites. In Dyak Green
ant. My dark colored soldier
ant. (?) in one of them.

Afternoon with me in sent
purpose of only Kumbilla
Cecum. as at initiation. At
Chor old man said stick on
beating purposes. Kumbilla
made out of ~~is~~ wide and thin tree,
5 in, out of slabs of same bark
of Curyang. Initiated by my
two fork. after he at ant with

but my same went on before except
that far more ants clustered
together at certain parts of passages.
Temp. of interior of nest decidedly
warmer than outside at sunset.

July 4 Kumbilla.

After tea to Hacks camp but too tired
to Terndone.

Very warm colored sunset with
orange and purple hues of cloud after sun
had gone down. Compulsively for
inspiration.

July 23 Sunday. Windy night - cold
windy morning. Packing up specimens

after lunch/pt. White ant hills. The
native Joe (Roper Nj. Mann) + old
Tanyman + Mungarai man.
"Dreaming" Uruanda old
snake man. Saw baby in child
spout in water tubs with etc as
in Warranyi. So along woman.
Abundance of punishment. Reincarnation.
No secret name?
Aft. skin hawk. The snake,
substance among account.
Hunting of Kanabippi. Woman
relationship Tenn. Descendant
in snake line with female a described
before.
Pit with a bird in pen all plain
station.
Blacky got into with picnicking.
Packed up before tea. Joe in
way. Got round fire.
Man came in from Hodgson.

Monday July 24.

Later start as snake packing
to the dam. 10.30. Raintford
arrived to go via Hodgson but
we decided to go to Roper.
Only a Pad. of fire along Red

from post
Spotted post

Tuesday July 25.

Very cold night
29.5 the stroke 7 am just before
Sunrise
Comical creek into very thick grass
over many banks. On under quartz
hill (as in opt. with pile of plants). on
across wide open plain with patches.

To long low hill. skated. No. Apple
Pine. Thin under hill. - quartzite
with waterfalls along an opening
away into creek that last study in
Swamp with reeds, low lying hill
on left (to) orange. Comony. Mumson
by ash. Fire came down in an
hour to dawn upon an oblong side
- but it was sunset road through
depth away in open plain
Saw two thick logs back to help.

Randford ~~and~~ latter had to wear
patrol - take drinking team into
N. After depot came out
on foot sunset plain with out
with: on my brow except yesterday -
fumble path. Found 5. also

northern side of such quartzite
ridge about 100 ft high. weathering
into blocks. Apple pine. Mumson
+ pine with scattered masses of
Apple yellow Mumson seeds.
Toward N.E. across fruit country
with white pine

Bark on Orange. Plum other
 than a Lichardt pine. The
 very low sum which passed plain
 into small creek. Nugget (copper)
 looks very tall. P. to Grant
 beyond 470. hills. Purple sand
 water. Chama. Mill caps. Hill
 very - 800' side. with fine clay
 creek. Rusty parts of shells
 around. Linds (sand). Montello.
 when nature had been pushing
 water through. Turkey. Black Colada
 white copper. Nourish my presence
 white beam. This. Slaps.
 dry trails small green basket.
 Quartz chert plentiful.

Wed July 26. Cold night. 32.5
 to 8 till after breakfast - got
 stone with powder hole flat
 Mass of sandstone ~~in~~ a barbed
 in situ. Chopped (working) out
 - long in an to camp. Put in
 Rancho way. Start 11 am
 road leading beyond. Vard
 water and then almost back to
 end of present canyon. We own

Bark on July 17. 5 to 6 in.
 complete

Two parts of pea plants - 5 or 6 in.
 on with yellow from long parts
 of small groups of 2 or 3
 stems with each with 2 or 3
 leaves

Every morning, think.

Friday July 23. 42°7
Horse stayed.

could not leave camp till 10.45.
Sailed at 10.45 + arrived base of mountains
9 paper books for next lesson. Some of
the larger books like were containing
information in double part.
Started 10.45. Back to town at 2.
end of Belle Hill + on across flats. via
Indian. change number. too
Layon + Malory & H. with purple
River away to north. Curved slight
rise - sandstone hill. The landing
at about McClellan Range.
Before hill our back camp. Early am.
Mended it and on. McClellan
Shift in distance. River when on +
A. Duck back at 2pm (about) On
McClellan county into small creek
+ camp at Malory at 3 pm. Remain
9 plants + small camp. Stopped short
3 p.m. June - John. Horse + 2
in ante. Drinky team in 4 pm.
After lunch to B. River into John.

Water Contaminated White Crystalline 20 m

Centrifuge for ^{microscopic} examination

Portsmouth Beautiful deep stream under
N. D. wall. Bluff ending of great perfect bank
Duck pond. Bank to Centre. Steep
paper force.

Saturday July 29.

Completely over night 400? NW Black
left bank 9:30. Accum. plate. ~~7000~~
Jack with very } distant quartzite
Specimens to S. } Shook River. Then
accum. plate. all about. few ant hills.
Then accum. lower plate to hills. One
one between Fair hill - very strong. (Result
on plain. Top of them with Columnar
basaltic hills to N. (on S. side of River).
Rocks with usual surroundings.

Road to E. S. 7 in? NW Kemp + NW Shaw
NW Kemp white quartzite. After evening
NW Kemp county with 2 bad cracks.
Had to cut banks away to cross

one of them. Track usually in a well
very much. Big tracks on hill side.
Abble pen + lots out hills - from
land after hills. I found a creek
about 4 miles beyond hills - on W. side -
with water cascaded.

Wife says 5 hills got billabong
with some water + 4 species of snails.
I not had before. Camp 2:30
Rangetop came in with chert + team
Diff. with you (Narrow) getting separation
9 Man. hills. Centropom. Maniam.
Smy skin

Sandy July 30. 45° 9'
bore in it. Left camp 9 am
Plots with several trees for some
miles. Then more stony ground.
Miles of Bog + Peccary and several
small creeks. Had to cut tracks
away and heavy on. Hills any to
E. Billabong with lumber. Then
into hills with ~~at~~ dipole by
myself with rocks. + Dissipate in thin
dipole. In top had extensive view
across land valley with hills on N + S
* my small picture exposed.

found 15 ^{or 16} minutes

Inlora with ~~leaves~~ *peruvianum*
pupae walking all way.
Culicoides & Diptera

Cant. sp. *peruvianum* for
Pupae
buckhorn

Bluffton on S. river out one after the
Other all covered with red quartzite
flats with yellow sand hills - forest
been within. First all road. After
quite a two yard county
found very broken about. Apple gum
in poor parts. Fully 500 miles from
Ashe to Roper. Camped near union
where it narrowed + found over rocky
bar W.H. = Labriby - Large
paper tanks. Camp at 4.30.
20 mile stage. Some Mullakan
blocks come in

Monday July 31. ⁴⁵⁷ h. camp. Stay
E. of end (slightly S) at 10. Platted.
all day with Dick (Marysville) +
Mullakan boy. Mine & latter +
Ranbyford with
with in at 5 p.m. with Mullakan
blocks till sunset. Sandstone too in print.

Tuesday Aug 1. 458 Decided to stay in

February

Lecture began to Pender Roubi
 Sandy soil or shell rock and in
 valley. Cause of quartzite
 are understood (?) Pender Sandstone.
 At Pender small crystalline limestone
 with conchoidal fracture. Small
 to Stubby camp limestone soil.
 with before than quartzite sandstone.
 Eastern Ligon like hills separate
 either of desert sandstone chalk
 like down rocks. Very clayey
 desert sandstone but with. From
 then to Stubby camp sandstone
 sandstone. Study to Alabaster Chalky
 horizontally bedded limestone about half
 way. A little to Little Spring limestone
 Belle Sp. to Wagon limestone clay
 to salt bank on rd lake basin with
 limestone Chalk similar to recent species.
 at Salt Creek Lacustrine limestone on
 other crystalline limestone and iron
 carbonate (marble) of thickened iron
 bearing water limestone to the Pender
 Mar. Pender 'Alabaster' sandstone 4 miles from
 Red hills. At Red hills highly
 inclined upper worked sandstone

Similar to horizontal sandstone at
 Pender Roubi. Pile & Ross.
 Probably the side of Pender Roubi
 carboniferous. Then quartzite
 is not a true sandstone or quartzite
 (my N. Carolina is probably a later
 volcanic last in fossils).
 5. pm Pender - pile layer table of
 basic grain rock. At B Bar of
 River - for miles - really started in
 here. At Bull oak creek Pender
 quartzite hill in N. I. Bar below
 to other quartzite series. (Buck for
 many of waterfalls) highly inclined
 towards N. E. Current Ligon
 upper worked & unworked sandstone
 (?) from Charleston - same series as though
 seen to Noble Hill - eastward to
 N. Dargalls Bluff. In low Eastern
 of Pender water series are very
 massive & bedded and quartzite. No
 apparently comparable to my N. Car.
 cherty till N. Keys + Sweet Hill
 which contains in view of Pender
 quartzite - my N. Car. includes (Pender series)
 Range of Pender (N. Carolina)
 mass of basic igneous rock - apparently
 intruded - especially the Pender sandstone
 Sandstone - my N. Car. extends quite
 to N. N. M. M. Sandstone of red

from
 carb.
 Bl.

(new one) = Roper Sandstone
 on N. side. Carbon up to things
 to Roper bar with fairly uncertainty
 dips. On east side of Hells
 gate another small patchy basin
 given rock apparently by
 within the Roper sandstone series.
 Roper Bar of calcareous clay stone
 with concretions (? fossils) dipping to
 SW. at fault dip.
 Bar at N. - N. - N. + 1' Roper
 Sandstone bar at Roper river
 west.

20 miles ~~the~~ S. of Darwin where
was situated

Pen had found Birdum Creek
Country for 2 days water to them,
showed that it would be saving to
buy line Kelt. to Day + around
Roper route. Some 150 miles.

First intention was to buy line
to Roper Pass + the S. following
particularly Strata Route.

5. all teams originally started
for Darwin got bogged.

Contract failed, even showing
decided to buy things up Roper
Told the company. Saw
the entry done on River!

only cattle station was Darwin
at Lake Costello. ~~State~~ Roper
very hard. killed cattle.

Anaspur people imported 18000
head cattle for Q. about 1903
John Auld + Macartney settled
at Mt Kelt. in Anaspur (
he called his station Florida) here

to shift to Anaspur or Victoria
R.

Anaspur people paid £4 a head for
£10000 cattle. Through and
through and under bank.

Buyer Elroy + Hodgson station
to shifted cattle to Florida
Elroy cattle under bank also
Hodgson. Peter got with John

of Roper + could not get back -
killed by natives. gave the
country up. Sent away about
2000 entry the 18000 to
Joe Bradshaw head

Q. of

~~the~~ Roper country was taken
up by J.S. Buttens before Anaspur
people who held Hodgson to
S. + Florida to N. of Roper
country. Buttens let some then

R. sold to S. side company
Cattle sold all mixed rights to
another company who were
worked in S. side field entry for 700
to pen - pretty settlement of fine

9 mile camp just
after Annapolis. Scotch papered
country and about \$1500 per acre
Proposed to have farm. railing to
Rosa with. Frez. in water etc.
Saw mill etc. H. D. S. M. Phee.

Rosa Ben about 200 yards
N. of Ben - nearly 2 miles
N. of Doyle's Bluff (below)
small town.

Station at Rosa Ben has
been such water.
Building suitable as high ground.
It can well be flooded at
winters.

good crop clay Rosa averages
3-4 inches a each mile
Expansive from water. Clay
land of white color. Yellow.
red + dark mud black.
Black pond but crop. 100
at hills little clay wanted.

most of it available. All ready could
be done in dry season. Some
unusually after water.
Cattle (which?) will suit for.
Any country probably could be
grown.
Well adapted for mixed farming.
Each settler should have 5000 acres
center around this to be returned
to farming. Each to have land -
big land for self + stock
Cattle not been in low country
during winter.
3 or 4. Expansive from stone
back people come. They could
produce sand wheat.

⊗ down to 4 miles ~~to~~ with better to
work from main road for clay under
plants. Roswell. Vaughton + suggest back
to Hills. etc. little for to camp.
Plotted. winter measure. One another in
land. Then on out into creek. Track
making. Runaway out of wildcat on tree.
Found red alligator skulls with tops of
head and perfectly from sandy soil in
creek valley. Found combined fall
8.30. Some in 3 yards

turkey and + knife + 6 sticks tobacco,
(file acc. of water down bay inland
trip. One taken knife out of man
sheath with tea while talking to him,
Another with his water under one
arm - put knife under the other.
Old man not understanding me
for about until Ross showed him how
to cut sally arm. Returned it to
Ross. (part.))

Monday Aug 7. Sayundah boat
(Warrant Officer Moin) came up at
6:30 am. piloted by "Captain" Lawson.
Packed up and left at 8:45. ~~St. Stern~~
Motor launch + my boat with my rifle,
Allynson along banks. Shot Mankeen
night heron + Sparrow. Division
station 2-40 pm. lovely evening.
mud, 1st night. "Sayundah" 6 am
boat coming out. "Sayundah" 6 am
Capt. Curtis. Lt. Stern. Payment
invt.

Tuesday Aug 8. started at 6:30.
Sayundah was lying about 7 miles
off. Passed Nama Island and

then on into the fjord.

Wed. Aug 9. } at sea.
Thursday Aug 10. }

Friday Aug 11. Reached Nama
Island + anchored about 10 pm.

Sunday Aug 13. went on shore + took
rooms at Victoria Hotel. Mr Davis.
after lunch back to Sayundah +
bought bag of Pt. Arranged for
letter in the Makoram. Capt.
Curtis. Stern - invited to dinner.

Sat. Aug 12. Morning to Bishop White +
Mr. Milman (S.R.). ~~off~~ after
lunch writing letter to Mrs. Mitchell
+ Mr. Strelton. Down to wharf.
"Eastern" in Capt. Hood. Dr. White
(of Darwin. medical officer). Makoram
lying off. Capt. Curtis to dinner.
Spent night at hotel till 5:30 am.

Sunday Aug 13. Boat started about
6 am.

Monday Aug 14. at sea. with report

Tuesday Aug 15. ~~at sea~~ Cairn 6. Brin
Capt. Miss. Trill - Miss Junie
Trill. Mr. Mr. Wells (captain
Thursday Island)

Prof Spencer

Mr H P Sugden writes me
that you were expecting
to receive a draft from
your father for some hundreds
of pounds to assist you
in the expenses of your
trip to the Centre. This
draft has not yet come
to hand and in all probability
he is afraid will not now
come in view of your father's
death. Allow me to express
my very deep sympathy with
you in your great trouble.

C. Todd
D. W. C.
