My dear Mr Creech,

I am happy to be able to tell you that the formal order for legalizing the stopping up of the old Rushmore Road and the substitution of the new one was made by the Court of Quarter Sessions yesterday. There will be the further formality at any time before the next sessions of a further view of the new road and a certificate that it has been properly constructed and is in good repair & then the whole matter will be completed. All the intricate part of the proceedings has been safely accomplished the remaining portion is a mere Bagatelle. The obtaining the order is a relief to my mind as where procedure is so intricate & technical there is always a danger of being tripped up however careful you may be.

Yours &c
Robert B. Greene
