Dear General Pitt-Rivers,

I am preparing a list
of each Tenant's Name & amt
with the percentage for the year
on the basis that we have
several times talked over & I hope
to be able to lay it before you
when next seeing you in the
ordinary course so that you may

deal with the same, I have never
had any intention of communicating
the same to my friend until
you had arrived at a decision
in the matter & fully confirmed
whatever may be done. I had
hoped as the Spring came on
things would improve but at the
market here to-day fat stock
has been lower than at any previous
sales. I remain your very obedt servant
