Sturminster Newton,

one.

Dorset 7<sup>th</sup> June - 1886

Dear General Pitt-Rivers,

I beg to enclose you the report referred to in my letter of the 3<sup>rd</sup> inst and since which time nothing of any importance has occurred -

The weather is now all that can be desired & vegetation making rapid progress & at the

present moment every kind of crop  
is very promising -

I am to meet Green at  
Rushmore in a day or two &  
should I find I have occasion to  
write you on any return I will at  
once do so -

I remain

Yours obedt. Servant

Alfred
