Dear General Pitt-Rivers,

Since seeing ^{you} I have
again talked over the matter
with Mr Harris of the Sheep
killing & he informs me his
man can prove that his own
Dog was not there as when
the man called Harris up his
Dog was lying in the Park of

the House, Harris is going to
give me some further information
at the Audit on Monday next
but I told him I should not
arrange anything with him until
there had been time for full
enquiry & until I had seen you
again on the subject, in dealing
with the matter it must be
recollected that it is an arrangement
between a Landlord and his

Servant & therefore I do not think
it will do to be too particular
in settling with him -

Michaelmas has passed & I
must say with a better result
than I expected as I have only
received 4 provisional notices
to leave in case we do not
agree on the matter of rent
& all of which cases have
been previously mentioned to
you & about which I will report
