Dear W. Crutch

Sendon Furrus remarks
on 1078. Please file in the census
& return them to me. They should be
answered in full as this is returned
as an explanation after reduction
of rent in poor future time & will
have to be referred to transcripts. Some
reductions are made it should therefore
be stated on account of bad time or
something to that ~~with full return~~
after full return is decided. See the
return in some cases fully agreed half

the rest. Fuller draws attention
to the fact that a number of bills
incurred in 1885 have not been
paid till recently. This you should
explain to me. I do not remember
any thing being stated about the heavy
rate of expenditure on both a household
front or for several years. Has anything
been done about settling some for
insurance or?

W. Fuller says the book was not
received of him until December. It
it should have been received in June.
This irregularity appears to concern

notwithstanding all that has been
said. It is absolutely necessary the
accounts should be sent in before the
July audit otherwise there is nothing
to show that the bills have been
paid out of the succeeding years
income all that must now be
finally put on record. I have
do the 1886 accounts go up to
Fuller. The says of the other bills
in June there can be no difficulty in
letting me have them in August.

I will
do so

I will look into it as soon as I
shall be going up to London in a day or two
