

" Pitt Rivers if he will leave
" the matter to go to settle"
From that day we have
heard nothing on the subject.
Shall we be right in
telling Barnes & Holloway
to carry out the schedule
prepared by Mr Barnes
& Mr Cowley our clerk
of works - If so we
will again send them
such a copy saying that
decision is final. With

Dear General Pitt Rivers.

We wrote to Messrs
Farrer & Co. on 21st July
they replied on the 22nd
" Mr Barnes says he will
" amend the work in any way
" you require if that will
" satisfy the General - We
" have therefore asked General

19, BUCKINGHAM STREET
ADELPHI W. C.

regard to what Messrs Farrer
say about not granting
the certificate on imperfect
material - we explained
to you in our letter of 7th July
that none but a practical
mason or an expert could
tell the difference between
certain beds of Portland
Stone & the samples we
have here from this.

With regard to doing our

best to get over this difficulty
of course we shall do this
in any case & have been
trying to get some satisfactory
settlement ever since
the defect was discovered.

However if you agree
with the schedule it will be
something definite to go
upon & we will try &
compel both contractors
to carry it out.

Yours faithfully
Romaine & Walter Esqrs

Dear Sir,

B380

We enclose our a/c for the expenses entailed in obtaining the correction of Barnes' bad stonework at the Vesta Temple, including also the Clerk of Works expenses which should be paid.

We have charged nothing except the journey expenses and incidentals.

We are,

Dear Sir,

Yours faithfully,
Romaine Walker & Tanner.

June 8th 1905.

Dear Sir,

We should be much obliged if you would send us cheque for our little ac, as delivered - £27.16.3. The amount being nearly all money out of pocket for the journeys we should be glad to have it, if you would kindly think of us when at leisure.

We are,
Dear Sir,
Yours faithfully,

Dear Sir,

We thank you for the cheque duly received. None of the money is for the contractor. It is for us and for Mr. Cowley the Clerk of the Works who went down from Brockenhurst at times when we could not have gone unless specially from home. We could scarcely expect the contractor to have paid these expenses, and should not like to have been left to his tender mercies.

Gentlemen,

I enclose a cheque for £27.16 3. as requested. I must, however, say that the amount is entirely due to scamped work done by the contractor, which I think ought not to have been allowed, and that if the £27 is owing for travelling expenses only, it must include other than the travelling expenses of the architect.

Yours obediently,

A. Pitt Rivers.

Messrs. Tanner & Walker,

I think that Mr. Barnes should be told to carry out the schedule prepared by Mr. Tanner and Mr. Cowley. It should commence soon, and be done, so as to avoid cutting up the grass near the building.

Yours truly,
A. Pitt Rivers.
