

a visit at another date,
of which I shall be glad
to have notice, as I have
frequently to make country
journeys to examine col-
lections and to see col-
lectors and I should
like to be at home and
to have the pleasure of
receiving your visit.

I have lately received
a very interesting series
of ~~very~~ early Japanese
carvings of deities and
ancestral warriors honor-
ed as Gods. They are
rather bulky so that
I am not able to keep
them at my rooms. I
should like to show them
to you if you think they
would interest you.

Some of them date back
as far as the 10th Century.

Yours faithfully
M. Kaloupek.

Dear Sir:

I am gratified to hear
that you honoured me
with a call at my rooms
in George Street and I
am very sorry that I
was not at home. I
am not able to keep
all my consignments
from Japan in the limit-
ed space available there,
but I have some choice
specimens of Japanese weapons,
armour &c, and some
selected pieces of old Bi-
zen and other early
Japanese art pottery which
I should like to have
the pleasure of showing you
and which I would put
out if you can pay me
