Dear Sir.

I have recently received from Russia some exceptionally fine pieces of Russian Enamels and also have the following objects which I think are well worthy of your inspection:—

(1) Some very fine specimens of Russian Peasant work in Papier Macheé—

(2) Four Bronzes (various subjects) made by Russian Peasants.

(3) A very unique Bronze—made by a Japanese Peasant and his family—

If you will allow me I should be most happy to submit the above whenever convenient to yourself—

Yours respectfully  
A. Kotin
