My dear Pitt Rivers

Many thanks for your
note I will pack up the
flakes - (one arrow head is very
pretty -) in a cigar box &
take them to the Lou & S. West.
Station this afternoon address?
to you to Tisbury Station. I
suppose you send for parcels.

As to the payment for
the them I must leave it
to you - there are 33 & they
belong to Clarke of Zagazig
Egypt - he collected them him-
self at Telwân whither he
went for the bather - he states
they are rare there now as
he was 8 days picking them
up, & does not know their
value at all - Whatever you
send me I will forward to
him.

Your two Stelae have come.
They are very fine - in fact
the larger one is splendid. pity
both are cracked - I will take
great care & do my best to-
wards giving you their history.
The large one is of later date
than the small one - Ptolemaic
I should think - the sign Δ
is used for μ - which denotes a
late period. I take it to be the
stela of a Priest adoring Osiris
who is accompanied by Isis &
Hepthys.
