Blandford,

May. 4th 1894

General Pitt-Rivers.

Sir.

I am most sorry to hear respecting the dog "Crab". I did my best for him.

He has a very sluggish liver which is the cause of the "Piles"; and I found if his bowels are kept well open, it gives him decided relief.

"Humber" has some laxative pills. If he let the dog have, one, every three or four days, it would, I believe have a good effect.

I have the honor to remain, Sir,
Your obedient servant.
