Dear General Pitt-Rivers.

Sir Henry Meux is very anxious to make some excavations in the part of Barbury Castle that belongs to him. His agent told me this yesterday; but the difficulty is that we have <sup>no</sup> experienced person in this neighbourhood who could be trusted to conduct the digging properly. He asked

me to write you on the matter.  
And to know if you could  
spare the time myself to  
do it. or failing that if you  
could let us have one of  
your staff to superintend.

He is also anxious to  
put the portion of Barching  
and that portion of the  
Avenue at Avebury that  
is his under the Ancient  
Monuments Act.

- Messrs I believe is very

Keen about this matter just  
now. & Mr. Poddar & myself  
are very anxious that the  
digging should be done & preserved  
& of competent hands. or that  
all the evidence procurable  
may be preserved.

I remain

Yours truly

Richard Bell.
